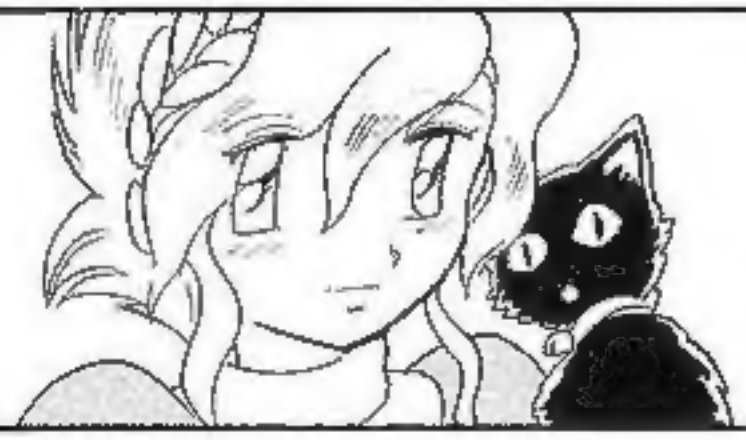
【クロスボーン・ガンダム 鋼鉄の7人　キャラクター紹介】

トビア・アロナクス

He became involved during the war with Jupiter and joined the Crossbone Vanguard forces. Thereafter, this young man worked at the Black Raw shipper which is run by their remnants. He is the pilot of the X1 and he's quicker to act than the rest of the group.



ベルナデット・ブリエット

Her real name is Tetenith Dogatie and she's the daughter of the former ruler of Jupiter, Crux Dogatie, who once planned to invade the earth. She began to doubt her father's line of thought and fled. After she was rescued by Tobia, that young woman worked together with him.

エウロペ・ドゥガチ

The second wife of the former ruler of Jupiter, Crux Dogatie and Bernadette's mother in law. She came to tell the earth sphere about the "Thunderbolt of Zeus" project. Europa wishes for true peace for the Jupiter Sphere.

ミノル・スズキ

SNRI's pilot instructor. He was once a Federation ace pilot called "The Blue Flash". Minoru was the one who proposed that 7 pilots should be used in the blitz strike operation against Jupiter.

ドレック・ナー

An SNRI MS test pilot and a survivor of the record breaker team which was annihilated by the Jovian force's new ruler, the "Shadow of Callisto". He's a skilled pilot, but he's also weak willed.

This image is hosted at MangaTank.com

ギリ・ガデューカ・アスピス

He is the leader of the Death Gale squadron which was once the enemy of the Crossbone Vanguard. He desires to take part in the Blitz operation against Jupiter out of his sheer hatred of the Callisto brothers.

バーンズ・ガーンズバック

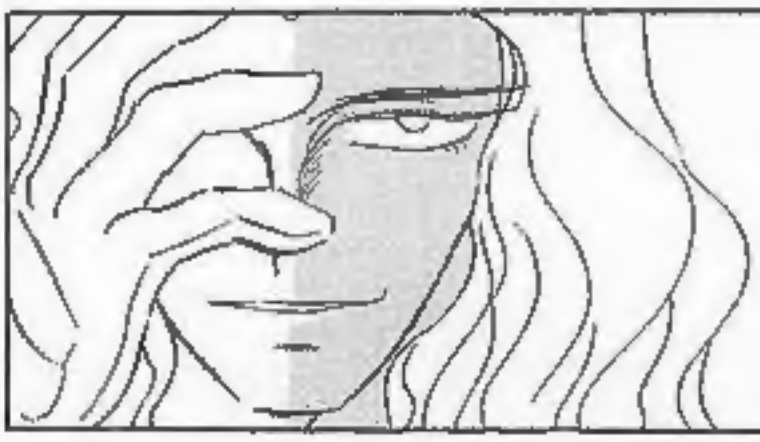
He's also a member of the Death Gale Squad. To him, Tobia looks like his long dead son. He learned of the "Thunderbolt" project and wished to take part in the operation.

ローズマリー・ラズベリー

She's also a member of the Death Gale Squad. From the very beginning, she was a mercenary and when she's guaranteed a big reward, she'll do anything. She also enjoys violent bloody battlefields.

ハリソン・マディン

A Lieutenant of the Federation Military who's an ace pilot with the nickname "The blue flash". He learned Tobia's objective and allows them to borrow his machine, the F91.



"光"のカリスト

The older one of the two Callisto brothers who are now the new rulers of Jupiter. He's the dictator who's responsible for the current progress of the "Thunderbolt of Zeus" project. He has psychic abilities.

Prologue

It is the year Universal Century 0136,

I never expected that the "Chronicle of the Crossbone" which I've been writing up to this point, would end up gaining a new chapter like this.

Apparently, the war against Jupiter which supposedly ended 3 years ago,

Was still not completely over.

The name of the last project created by Jupiter's former President, Crux Dogatie, was

"The Thunderbolt of Zeus".

It was a huge and fearful project where they intend to snipe the earth with a colony laser at Jupiter, from over 600 million km away.

COLONY

EARTH

MARS

This image is hosted at MangaTank.com

For that, Tobia Aronax and the others headed down to earth.

The only way to reach Jupiter within the remaining time limit,

Was to pursue the lost experimental machine called the Icarus.

After a long and intense battle against the new Jovian ruler, "the Shadow of Callisto", who tried to stop them,

They have finally defeated him... and gained the means to reach Jupiter...

This image is hosted at MangaTank.com

If a "war" is an armed intervention between two established nations,

The remaining task was then to select the 7 pilots who would each travel to Jupiter

Then, this is conflict is definitely

Not a "war"

What exactly

this whole conflict then means.

Will have to be determined by future generations

Whatever the result will be,

The curtain will soon rise

We'll soon make contact with the Icarus,

Make preparations!

This image is hosted at MangaTank.com

Take care

So then,

Farewell Tobe!

Said my goodbye

On the morning of their Journey I have finally

I might have had some kind of foreboding feeling but

What Should I do?

This image is hosted at MangaTank.com

第11話　鋼鉄の7人

This image is hosted at MangaTank.com

That's not good! It's an act of piracy and won't be tolerated

Did you move without permission and take the machines which the Federation was investigating along with my F91?

Instructor Suzuki

Where have you gone!?

Well since we cannot waste even a single second, I m sorry that I left without even saying goodbye, Harrison!

Oh!

Try not to escape 'too far from where we are!

It could take some time

Well, from where I am now, I'll be sending a pursuit team after you,

But since we also have to handle the Jovian ship

Lt., will you not take part in the operation?

Harrison I'm sorry

This image is hosted at MangaTank.com

I'll do my task here in the Federation for a little bit longer

Sorry, but I have to do something which only I can.

He's considered that possibility all along.

I'll prepare for the case of all cases and put in my effort to rescue as many lives as possible.

To convince the higher up to evacuate the civilians from the most dangerous areas

As long as it's what I need to do, I'll treat it like a soldier's duty

I don't know how much I can do.

And wait for me!

Therefore Please survive, no matter what!

I knew it.

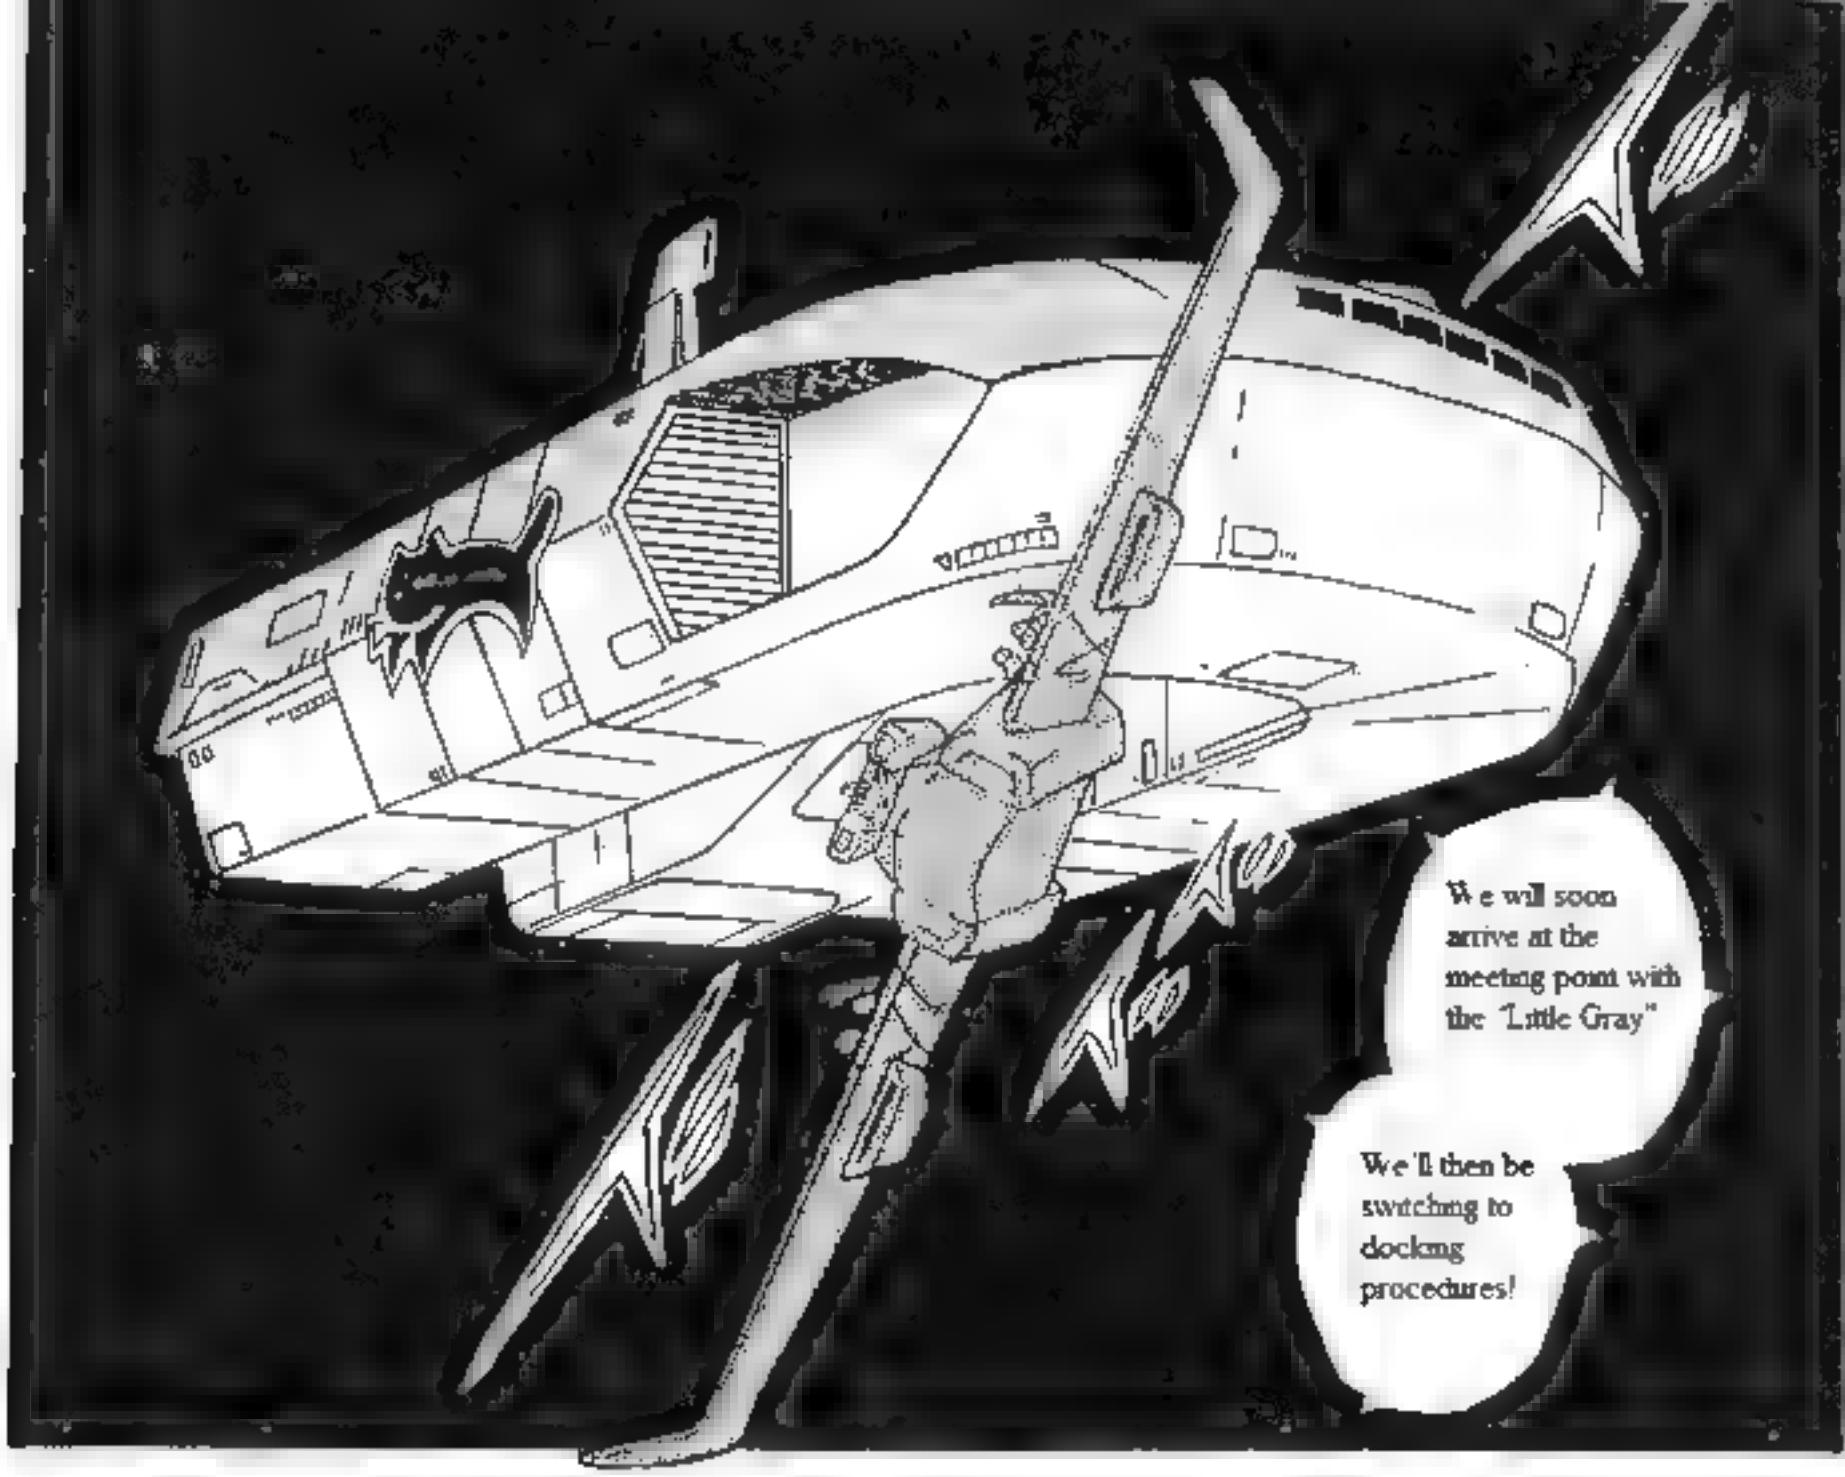
You're stubborn

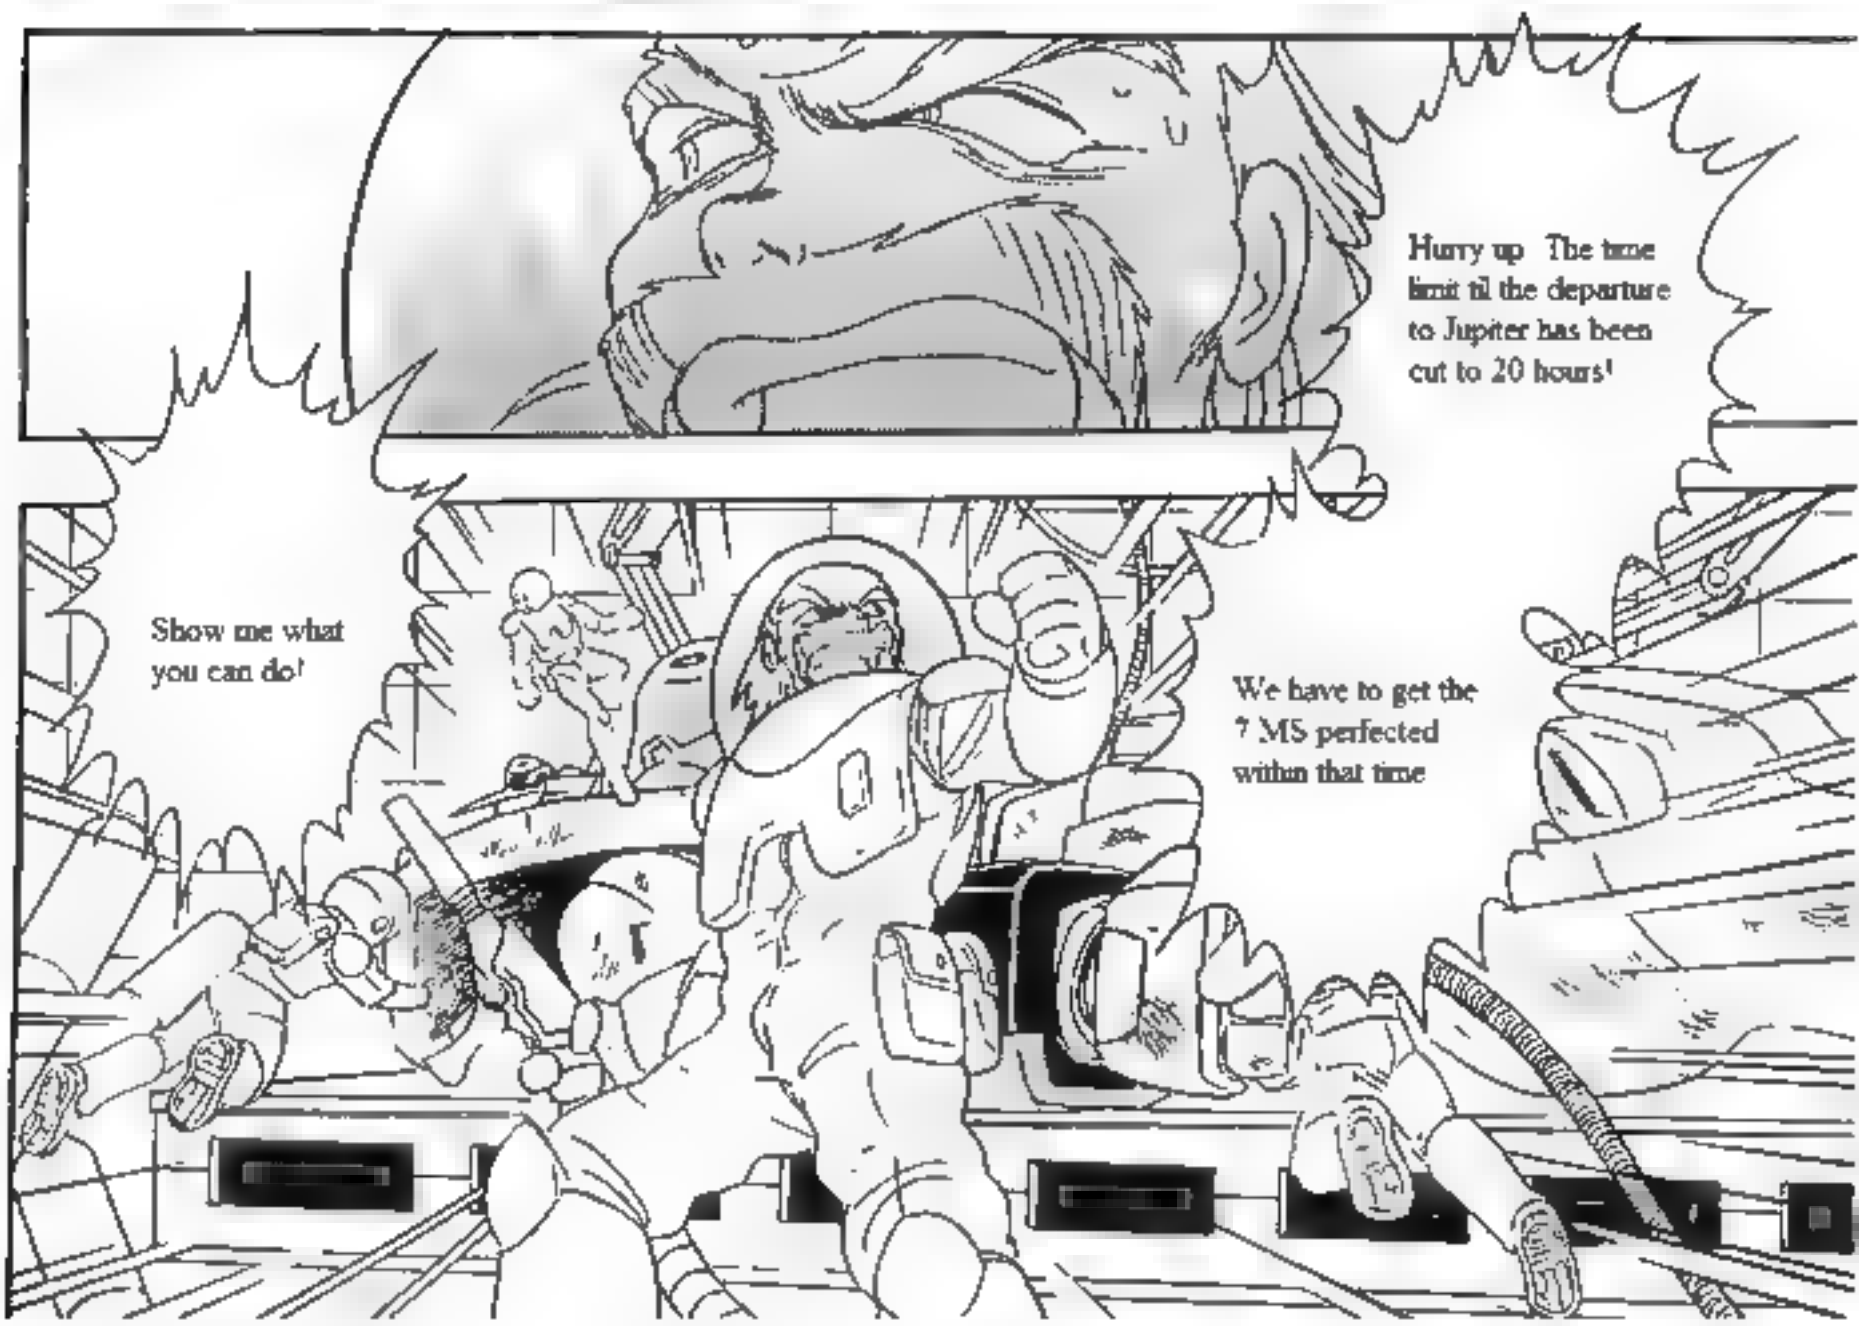
As quickly as I can, with every bit of authority I have!

So Promise me!

I'll travel to Jupiter to welcome you

This image is hosted at MangaTank.com





Hurry up The time limit til the departure to Jupiter has been cut to 20 hours!
Show me what you can do!
We have to get the 7 MS perfected within that time

Hello

Hello

Sorry That I mistook you for a spy

I ordered the others to watch you.

Don't worry about it.

If I was in your position, I would've done the same thing

...That bitch!

Captain!

This image is hosted at MangaTank.com

As long as you're in here, you won't have to worry about your thoughts being read.

It's a brain wave blocking machine. As noted in the documents at the Newtype Labs,

It's only provisional, but

ちょい ちょい

What do you want from me?

Well, it may or may not work against an opponent who is a "psychic"

You're assigning me as the commander of the attack team?

That's ridiculous

What did you say?

If we're aware of it, we can take countermeasures

Didn't you just say that their president might still be able to read my heart?

During the previous battle, I saw your comprehension and decision making abilities!

You can't be serious. Why would you do that?

This image is hosted at MangaTank.com

How much trust could you still place in that opponent's heart after that?

at least he thinks you tricked him. Even if he still can read your thoughts

Besides, he was tricked by you once already.

Can I ask you to take up this task?

That your existence could end up being our Joker card of information warfare

On the contrary, I believe

One of your enemies!

Bu, but

I m a Jovian.

The people here know that better than anyone

Our enemies aren t merely humans from another planet.

If you put it that way, aren t the rest of us the same way?

If you do it, you re the one we can trust with our lives.

This image is hosted at MangaTank.com

We'll believe in you till the very end

If we hadn't believed you, since you came from Jupiter in the first place. None of this would have occurred.

Is that alright?

.....

I will accept

I understand

.....

We're still missing one final pilot

The Death Gale, Miss Europa, Tobia and myself

Well then, with this, there remains only one question

I Will go!

Drake?

What?

You don't need to worry about that

This image is hosted at MangaTank.com

You can't!

Drake You idiot!

Please let me take part in the operation

What will happen to your mother and sister in your hometown?

If the earth s destroyed, then the results will be the same!

Are surely somehow one in the same

And doing the things you must do

Besides I think that just feeling the wind

Yes sir!

But don't you dare die

Alright Then I won't stop you!

You've found?

Is that the answer

This image is hosted at MangaTank.com

Oh? That's not a big deal.

What d d you say? We've already put the "M" mark on it!

Hey, what? We've been using our spare time to make it look cool, though

Additionally, you'll take the F91

Can probably get a better performance out of the unit.

I thought that I'd use it but You, a former pilot of the F99

I normally use my middle name since everyone reacts that way.

Michel?

"M" would also fit.

Well, my first name is "Michel" so.

Hahaha, then .. I'll take the Record Breaker insignia on my machine.

This image is hosted at MangaTank.com

How should I do it?

What should I do? I

that we could spend togethe at the Great Canyon

Before we left earth, We had just a little bit of time

Could it be, for their ruler?

What? A flower?

Huh?

Right

And had intended to do. . but,

I can't allow the things which Callisto has done

Tobia

Tobia!

This image is hosted at MangaTank.com

I will go and crush your project!

Therefore

He was driven by fear when doing it.

This is meant for that.

so that's fine

You are who you are.

It's alright

Oh, sorry. We're almost out of time.

Oh.

What can I say?

This image is hosted at MangaTank.com

You like cats.

They're my second favorite thing

Tobia, It's time

To say farewell

Everything!

I loved these three years we had

What?

This image is hosted at MangaTank.com

A time which someone prepared,

But it's definitely

The earth, the colonies, the people and the way they Everyone lived

so that I'd know the kind of world I should build, when I finally made it back to Jupiter

To revive that small country which would Fall apart if it's left as

I will return and live there!

I will return to Jupiter

Is that something Which you've decided of your own will? Are you sure?

I also believe you'll succeed

Of course, That'll be at a time after you've all crushed the amb tions of their new president, but

Yes!

This image is hosted at MangaTank.com

Tobia Arronax can't live on Jupiter!

Then I will too!

now wanted as a major criminal who they'll never forgive.

As the current ru er said, at Jupiter, you're nothing but a

War Criminal

The current order of the Jupiter forces will crumble.

If it goes according to the plans and both the Light of Callisto and the colony lase are destroyed

on a normal flight from earth :'ll end up arriving 4 months after you

I will go, after your departure.

She's told me that they'll do it

Then, the resistance responsible for backing up Europa will make a move

This image is hosted at MangaTank.com

Survive that the battlefield at any cost,

and get protection from the resistance'

When you succeeded in destroying the colony

And I'll do whatever it takes to get you back to the earth sphere'

When I arrive

I won't even hesitate to use the name of my father,

Can't be at Jupiter

But since Tobia Arronax

That is my task in this battle

Bernadette'

Goodbye Tobia

Farewell

So

This is the end

This image is hosted at MangaTank.com

Bernadette?

Is that really the only way?

My name is.

Ietenith Dogatte

To a very distant place

The girl with that name has disappeared

She rode on the wings of light and flew far beyond Jupiter

Survive!

Because that s her wish

But

No matter how far apart you are from her Survive Tobia!

The arm comes from the Flint's right one, so it turned back to a beam shield

The Flint's?

Yep! We've put all the remaining parts in this baby!

There's not a single spare part left!

This is the very last "Crossbone Gundam"!

The last

There are two I-Field generators on each side of the shoulders, so 4 in total

that's a special armor where we've layered all the remaining ABC capes together...

It's special weapon equipment designed for getting through a large force with a small number of machines!

This image is hosted at MangaTank.com

Heh

Yes, we've been using it ever since things the early days with Kinkedo..

When I look closely, this guy's getting pretty worn out.

What Should I do?

Kinkedo.

Lies at a world where I can't be.

If the thing she desires

I just thought about

How Bernadette could live there in happiness.

This image is hosted at MangaTank.com

Somehow He started calling himself that

On the day when I decided to fight against the Jupiter Empire

Captain. That s

Kukedo s real name

Is Seabook Arno

So he could be with you while you played the role of Berah Ronah?

A name meant to be a necessary evil

Wasn't Kukedo Nan

But she didn t choose to do so

She could have chosen to look away from the battle with the "Jupiter Empire"

Until High school, Berah was an ordinary girl.

She was the daughter of a Baker

This image is hosted at MangaTank.com

I'll still protect her

And even if what I do sends me to the depths of hell,

That's it

Hahah That.

I have decided to become a power for her

That's all

I might just have to leave you

If she becomes Tetenith

I understand.

It's far better than the depths of hell!

If that's all,

I might have to say farewell to you but.

This image is hosted at MangaTank.com

Mr Kinkedo!

I will inherit everything

I got from you!

All members who're taking part in the operation must gather!

Oh, ahh! Europa

Ahm

Please.

Since I can't go with you

This image is hosted at MangaTank.com

What?

I don't want to!

Take care of Tobia!

So

So I don't want to take care of a child

I'm not that young

I can look after him until then

Come and get him soon.

Bu but

Thanks

Wait!

This image is hosted at MangaTank.com

I don't know if what I'm thinking is possible.

I'm out of tune, and

What?

Look into my eyes!

?

Therefore I can't say it very well, but If You ever have doubts, just believe in these eyes.

But I will say that,

Danger might still come your way

Never forget them.

These eyes?

This image is hosted at MangaTank.com

Tobia?

"I" will definately still come

Also even if Tobia Arronax can't come

That's a promise

See you again!

I'm glad that you all came,

everyone!

This image is hosted at MangaTank.com

Within the Jupiter Strike force

Henceforth, I will now explain the position and job.

Of each team and member

Burns Garnsback will go with the Barra Tortuga

And handle close range support!

The attacking "A Team" will be the Death Gale Squad!

Rosemary Raspberry will take over

long range support with the Alana Abeja!

This image is hosted at MangaTank.com

This image is hosted at MangaTank.com

The "B team's" attacker will use this F90 type

And I, Minoru Suzuka, will pilot it myself!

The long range support will be handled by Michel Drake Nah with the F91!

This image is hosted at MangaTank.com

The close support will be Tobia Arronax in his X1 "Full Cloth"

All assault orders will be issued from the Angel Diona, set on the Icarus.

By Europa Dogahe

This image is hosted at MangaTank.com

The operation name s will be

The last words.

Tobia told me, Were

He said, See you again.

What?

See you again.

This image is hosted at MangaTank.com

I'm going!

Bernadette!

Have a good trip.

Tobias!

I don't understand yet what that means but

I can say that I believe in them.

This image is hosted at MangaTank.com

Here s your meal

Since we were able to take the Nozzle with us on the journey, The living standards were significantly higher than what the original plan called for

And we spent our time enjoying life

What?

In space, as we flew at high speeds, we were like tiny grains of sand.

This meant that no one would bother trying to capture us

And since we knew that, there was nothing either side could do to the other

第12話 歪みの手

This image is hosted at MangaTank.com

That s when I realized

Well

Tobia

I just asked what you re fighting for

I was,

quite shocked at myself

That I didn t really have any answer for such an obvious question.

In your case your act based on whatever you think about your circumstances

I thought of lots of thing

A cat!

Tobia. You're just like a cat

So you still can't think of anything.

(It's okay I just wanted to check)

Hey! What s with you all!?

From now on, We'll engage in battle against the Jupiter empire!

From the operation's start onward, all command authority will go to Miss Europa.

But before that, I want to tell you one thing!

You haven't forgotten the survival manual which I gave to everyone, right?

Now! Only you can hear this

Miss Europa!

Tobia

This image is hosted at MangaTank.com

Is?

The one I gave you

The one of my former lover, Curtis

What?

And our fake identities

Of course

The method for contacting the Resistance after we've snuck into Jupiter's society

Yes, that!

I'd be glad to see you use it

If you intend to stay on Jupiter forever then it'll be better if it's as a person who was there from the beginning.

I can imagine what you're thinking. But

For taking part In this suicide mission!

Firstly Thank you.

Thanks.

Now I have to live every second I can. For my comrades

Tobia Are you sacrificing your armor so you can focus on attacking

No You mustn't

This image is hosted at MangaTank.com

The chances of survival are very close to 0%.

He's relying upon the armor?

With that method... You won't hold on for long

Callisto isn't such a weak opponent

You'll break apart!

From the very beginning

Right. That was the strategy.

Everyone knew it. Even he

Drake, Think about it!

Instructor Suzuka Tobia!

Are there no other options?

A hand to hand technique to stop the attack!

must be something he lacks. Speed! Attacking power!

The opponent might be strong

Is it because it's able to generate an I Field?

Compared to that "Bird", the hand doesn't try to evade our attacks

A hand

I can win! Maybe I could!

!

But!

But!

Drake! Whatever happens, Don't break the formation!

Tobia

Yes!

Are you crying, Tobia?

This image is hosted at MangaTank.com

Right!

Over the many lives which disappeared?

Right

That it was inevitable?

You're the one who knew

Hm?

But Enemy machines are approaching!

Miss Europa Tobia.

And of course. You'll go as well, right?

I will still go

Even so.

This image is hosted at MangaTank.com

Mr Suzuki?

Alright! Go

I'll stay here and act as a turret to attract the enemy s attention!

Go and give the colony laser its finishing blow!

The two of you ll go!

Heheheh, To be honest, my thrusters are mostly gone and I can't even properly change directions!

to put forth his best efforts for the next generation!

It s an old man s duty.

But!

Fine by me!

Mr Suzuki!

I won t accept you getting yourself killed either

You were the one who said 'Survive"

I under stand!

But

Hah!

This image is hosted at MangaTank.com

Hehehe

Alright

Then lets

GET THIS PARTY STARTED !

This image is hosted at MangaTank.com

Because I wanted to be forgiven.

Tobua I've come all this way

And for the many lives that were lost because of my silence

For not telling anyone of the Thunderbolt of Zeus project sooner

For the fact that I could not stop the ruler

This image is hosted at MangaTank.com

A moment ago. I tried to carry your heart without asking.

From the first moment when I lost the thing I cared about

The many things I wanted to do. but couldn t

Tobia

along with the things I've wanted to tell someone

That I d bear all the remaining punishment

To say "This will be enough".

This image is hosted at MangaTank.com

Since it isn t

what you desire

But I couldn't do it

This image is hosted at MangaTank.com

This image is hosted at MangaTank.com

It's no use! The chain reaction can't be stopped

With the destructio n of the Colony's Mirrors

The victor has already been decided.

We'll never be able to aim the beam now!

There are still only 3 minutes

until the Shinwatz s next shot

It s going to explode!

But

This image is hosted at MangaTank.com

This image is hosted at MangaTank.com

2 minutes until the Abyss arc fires!

Gah!

What?

This image is hosted at MangaTank.com

Hah! That s good

At least one survived

Is that Miss Rosemary! ?

Mr President! Can you hear me?

Where are you?

We ve lost control of the Shinwatz

It s about to blow

This image is hosted at MangaTank.com

Answer me Tobia Arronax!

Why did you destroy our beautiful project!?

What did this battle mean to you What noble cause did it hold for you?!?

But!

We're escaping

Don't worry about him.

ANSWER ME!

This image is hosted at MangaTank.com

It was all out of

righteousness!

We have set history on its correct path!

The Federation would receive its punishment from the Shinwatz

For standing in the way of Cmdr. Dogatar's invasion!

This image is hosted at MangaTank.com

Aaaahhh

Miss Europa...

It had to be!

The right thing had to be done!

It had to be!

You would've been forgiven?

Are you saying that if this was righteous

This image is hosted at MangaTank.com

This image is hosted at MangaTank.com

Callisto you and I are the same

Why won't you say anything Toburoh Arronax!?

Ugh!

Because of the past

Manipulating the Future

What could it be!? Say something.

like when you killed my brother!

He learned to accept forgiveness from others and himself

But Toburoh is different. He doesn't want anything like that

This image is hosted at MangaTank.com

And through that

He s kept moving forward

With a stern heart of steel, just like the wind

That s the answer that Tobia has found.

Even when it meant enduring pain and seeing blood spill

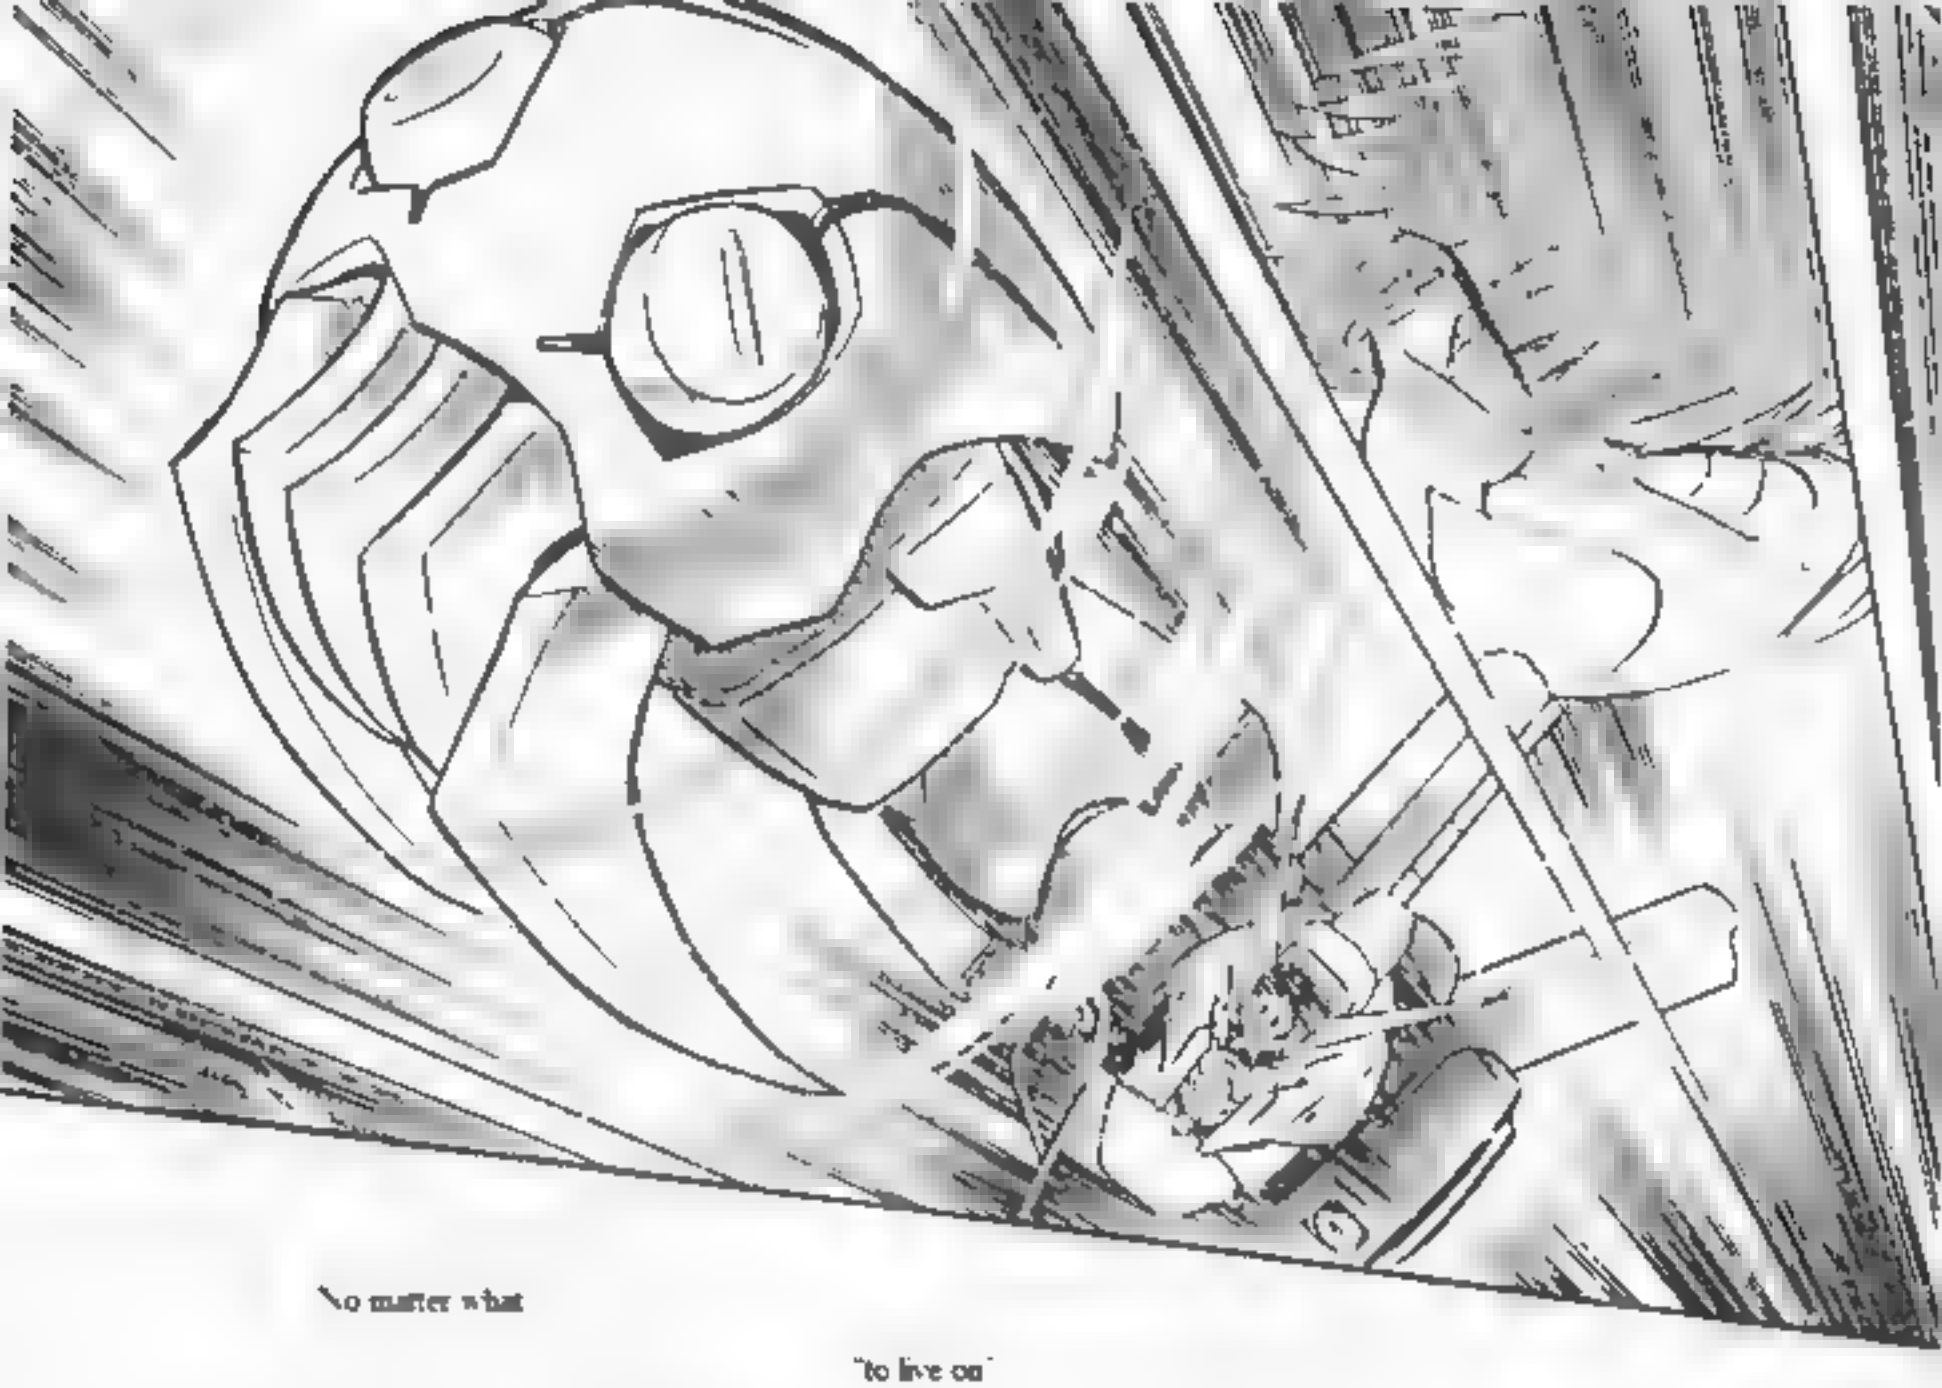
This image is hosted at MangaTank.com

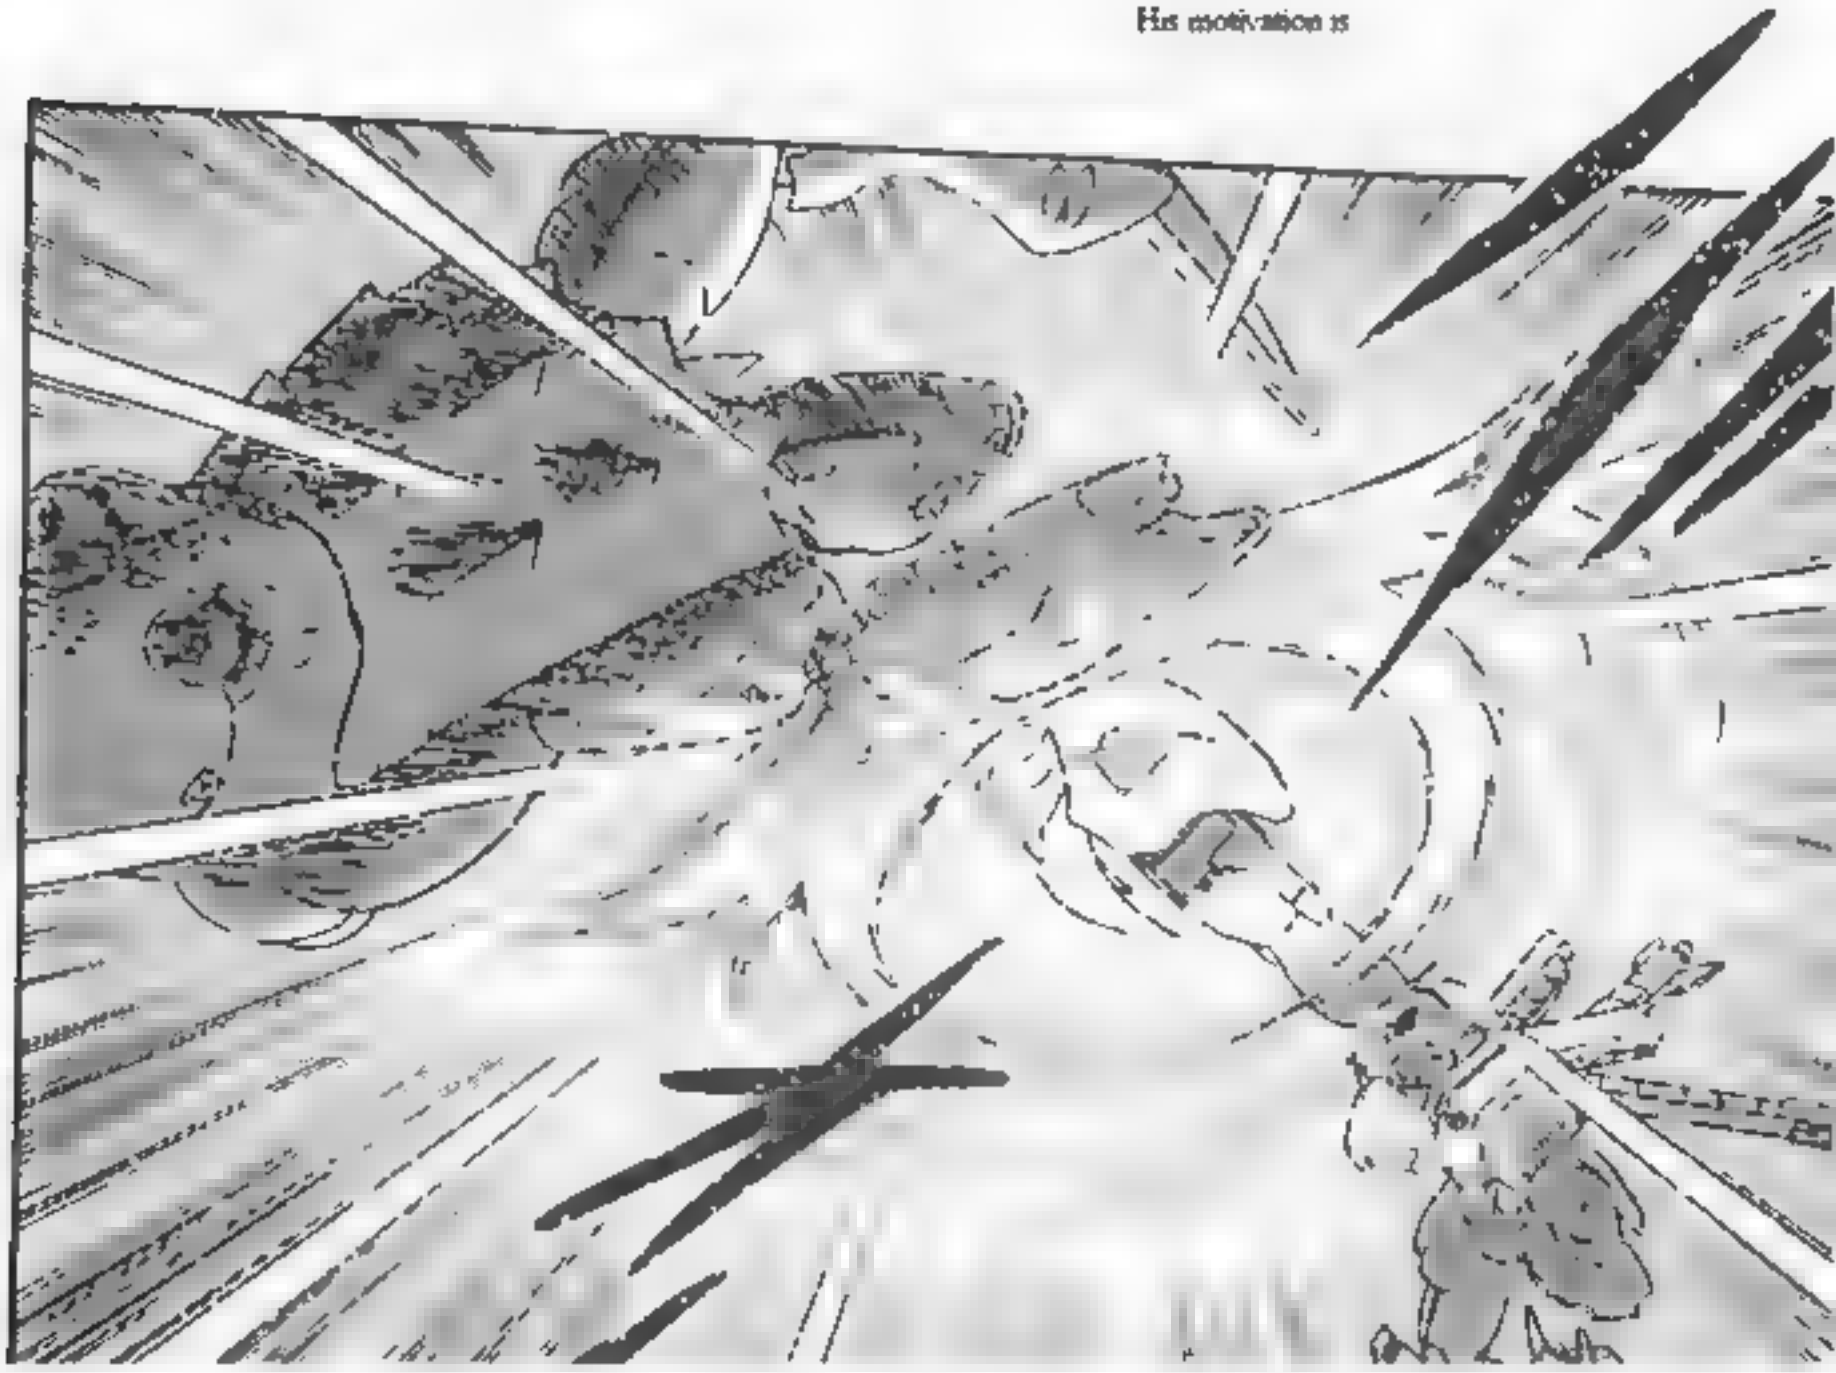
I TOLD YOU TO SAY IT!

This image is hosted at MangaTank.com

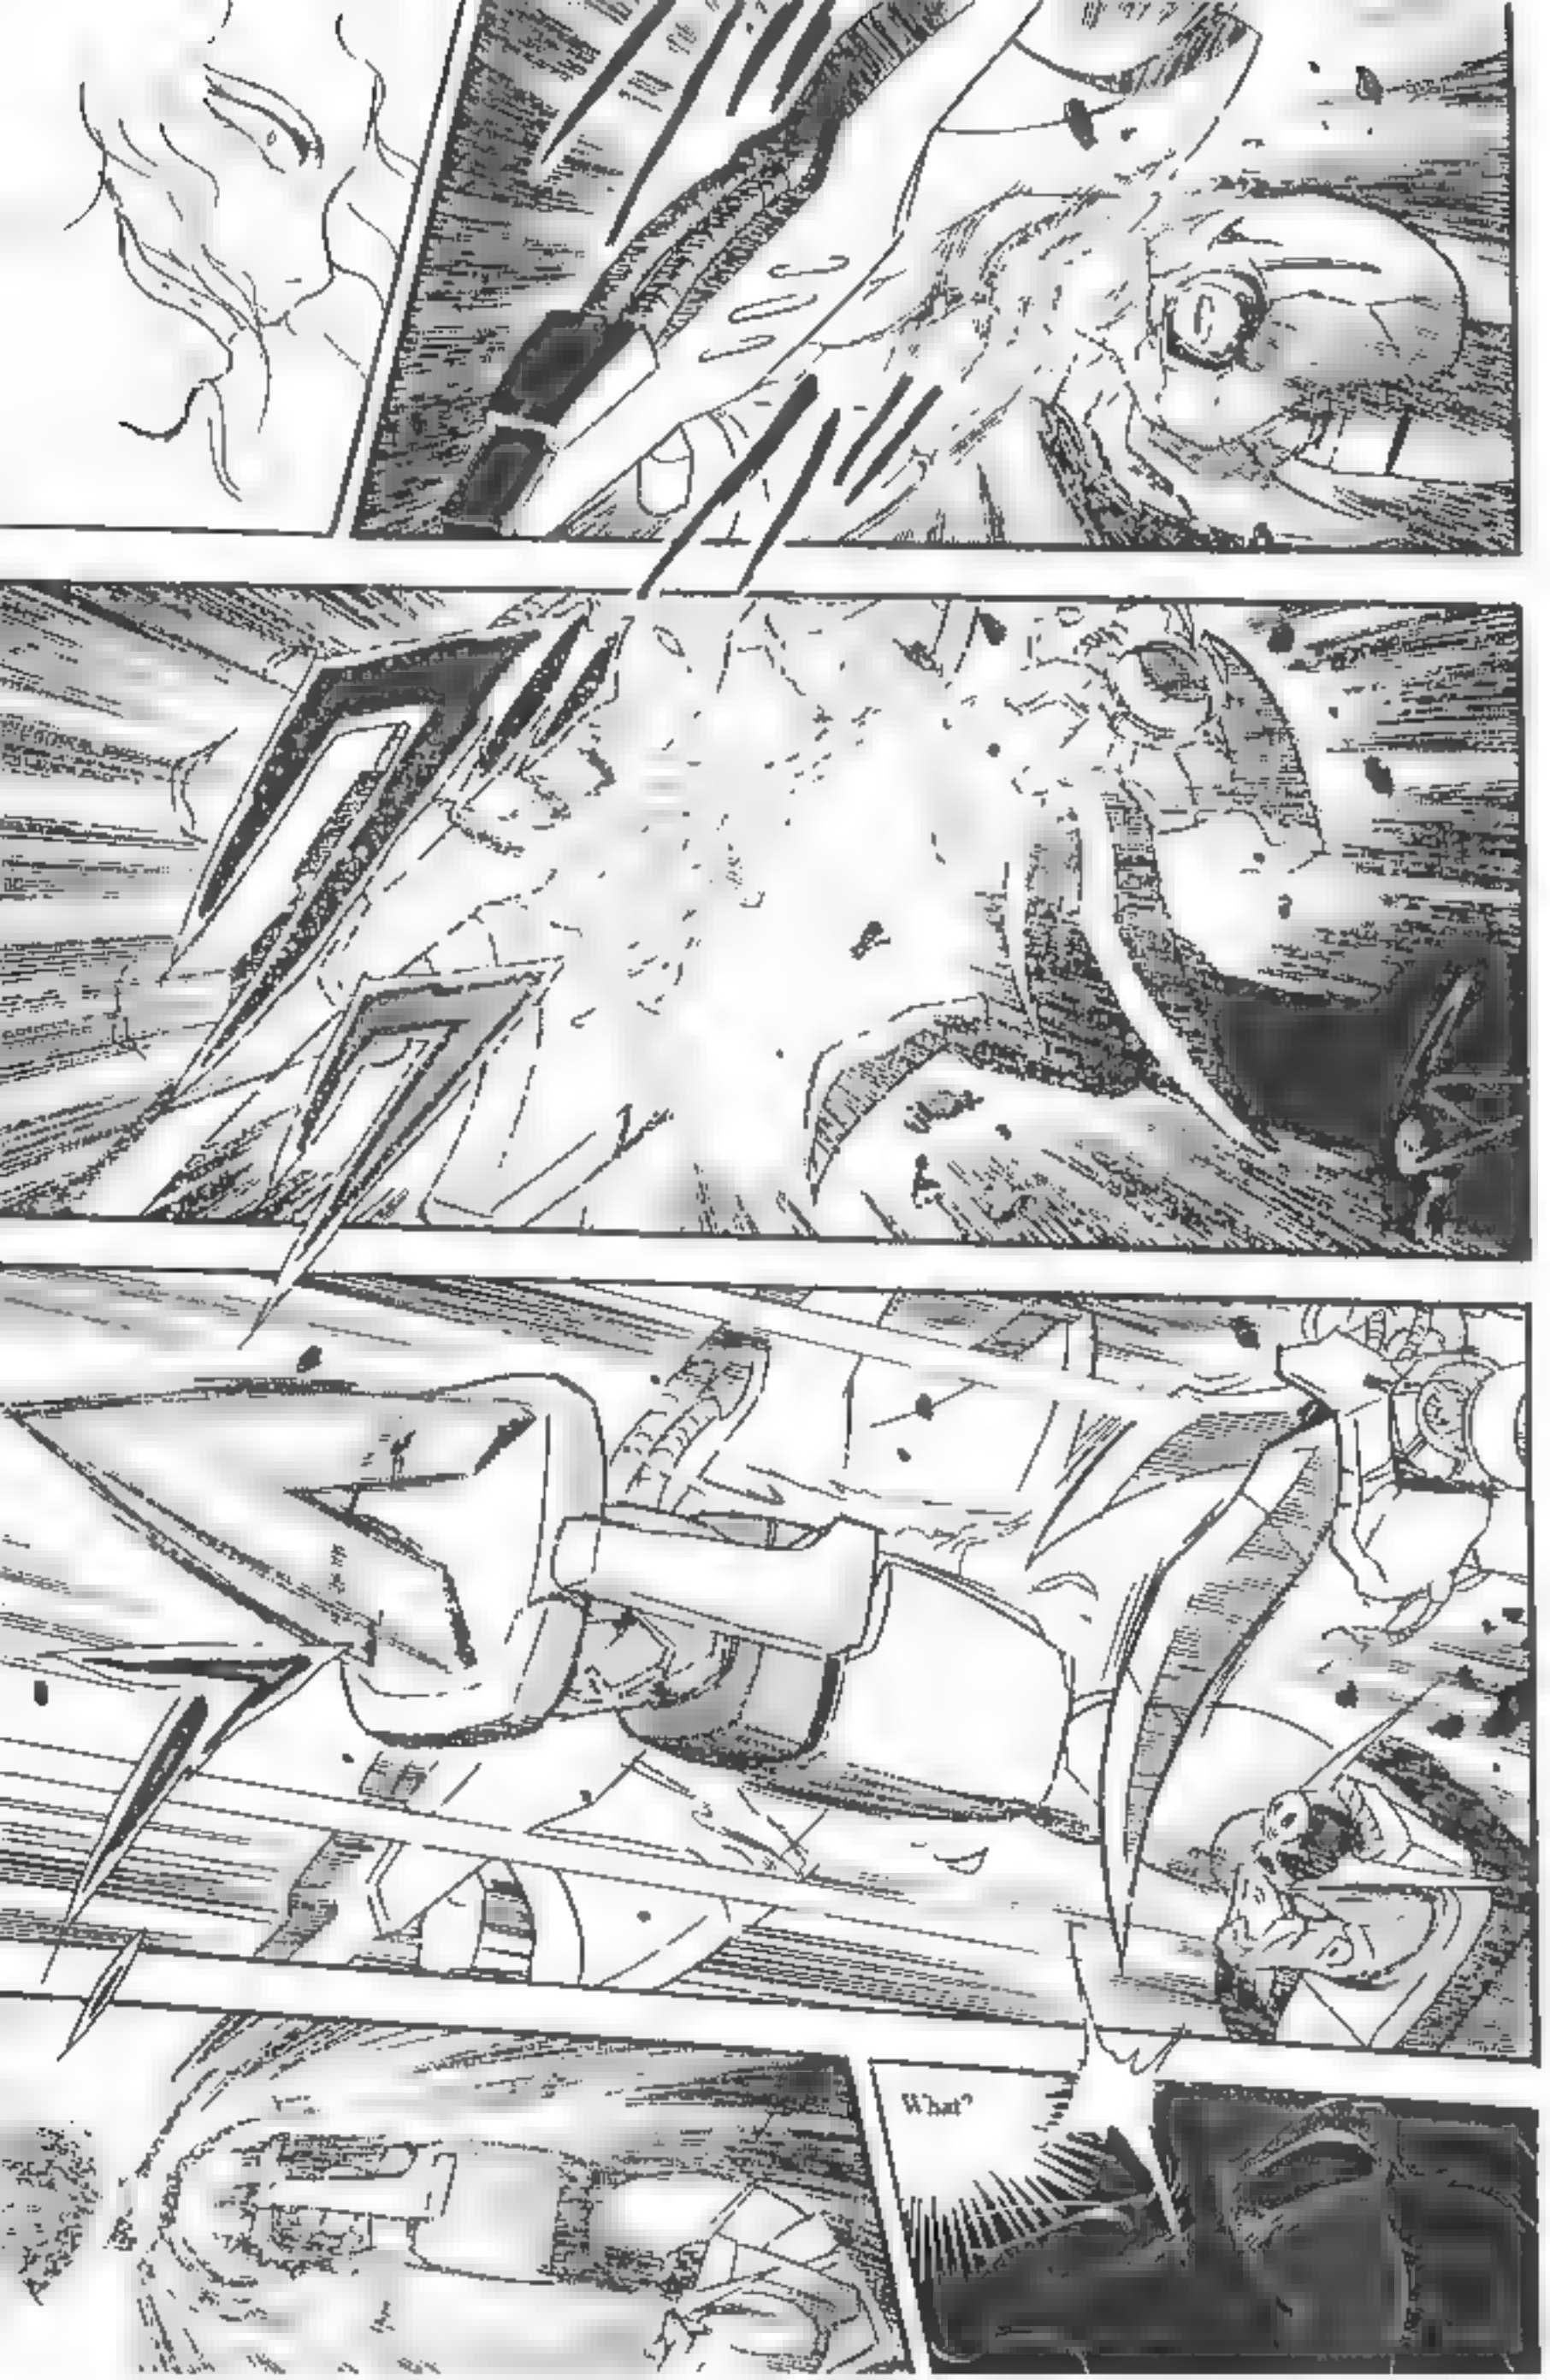
Anah!

This image is hosted at MangaTank.com



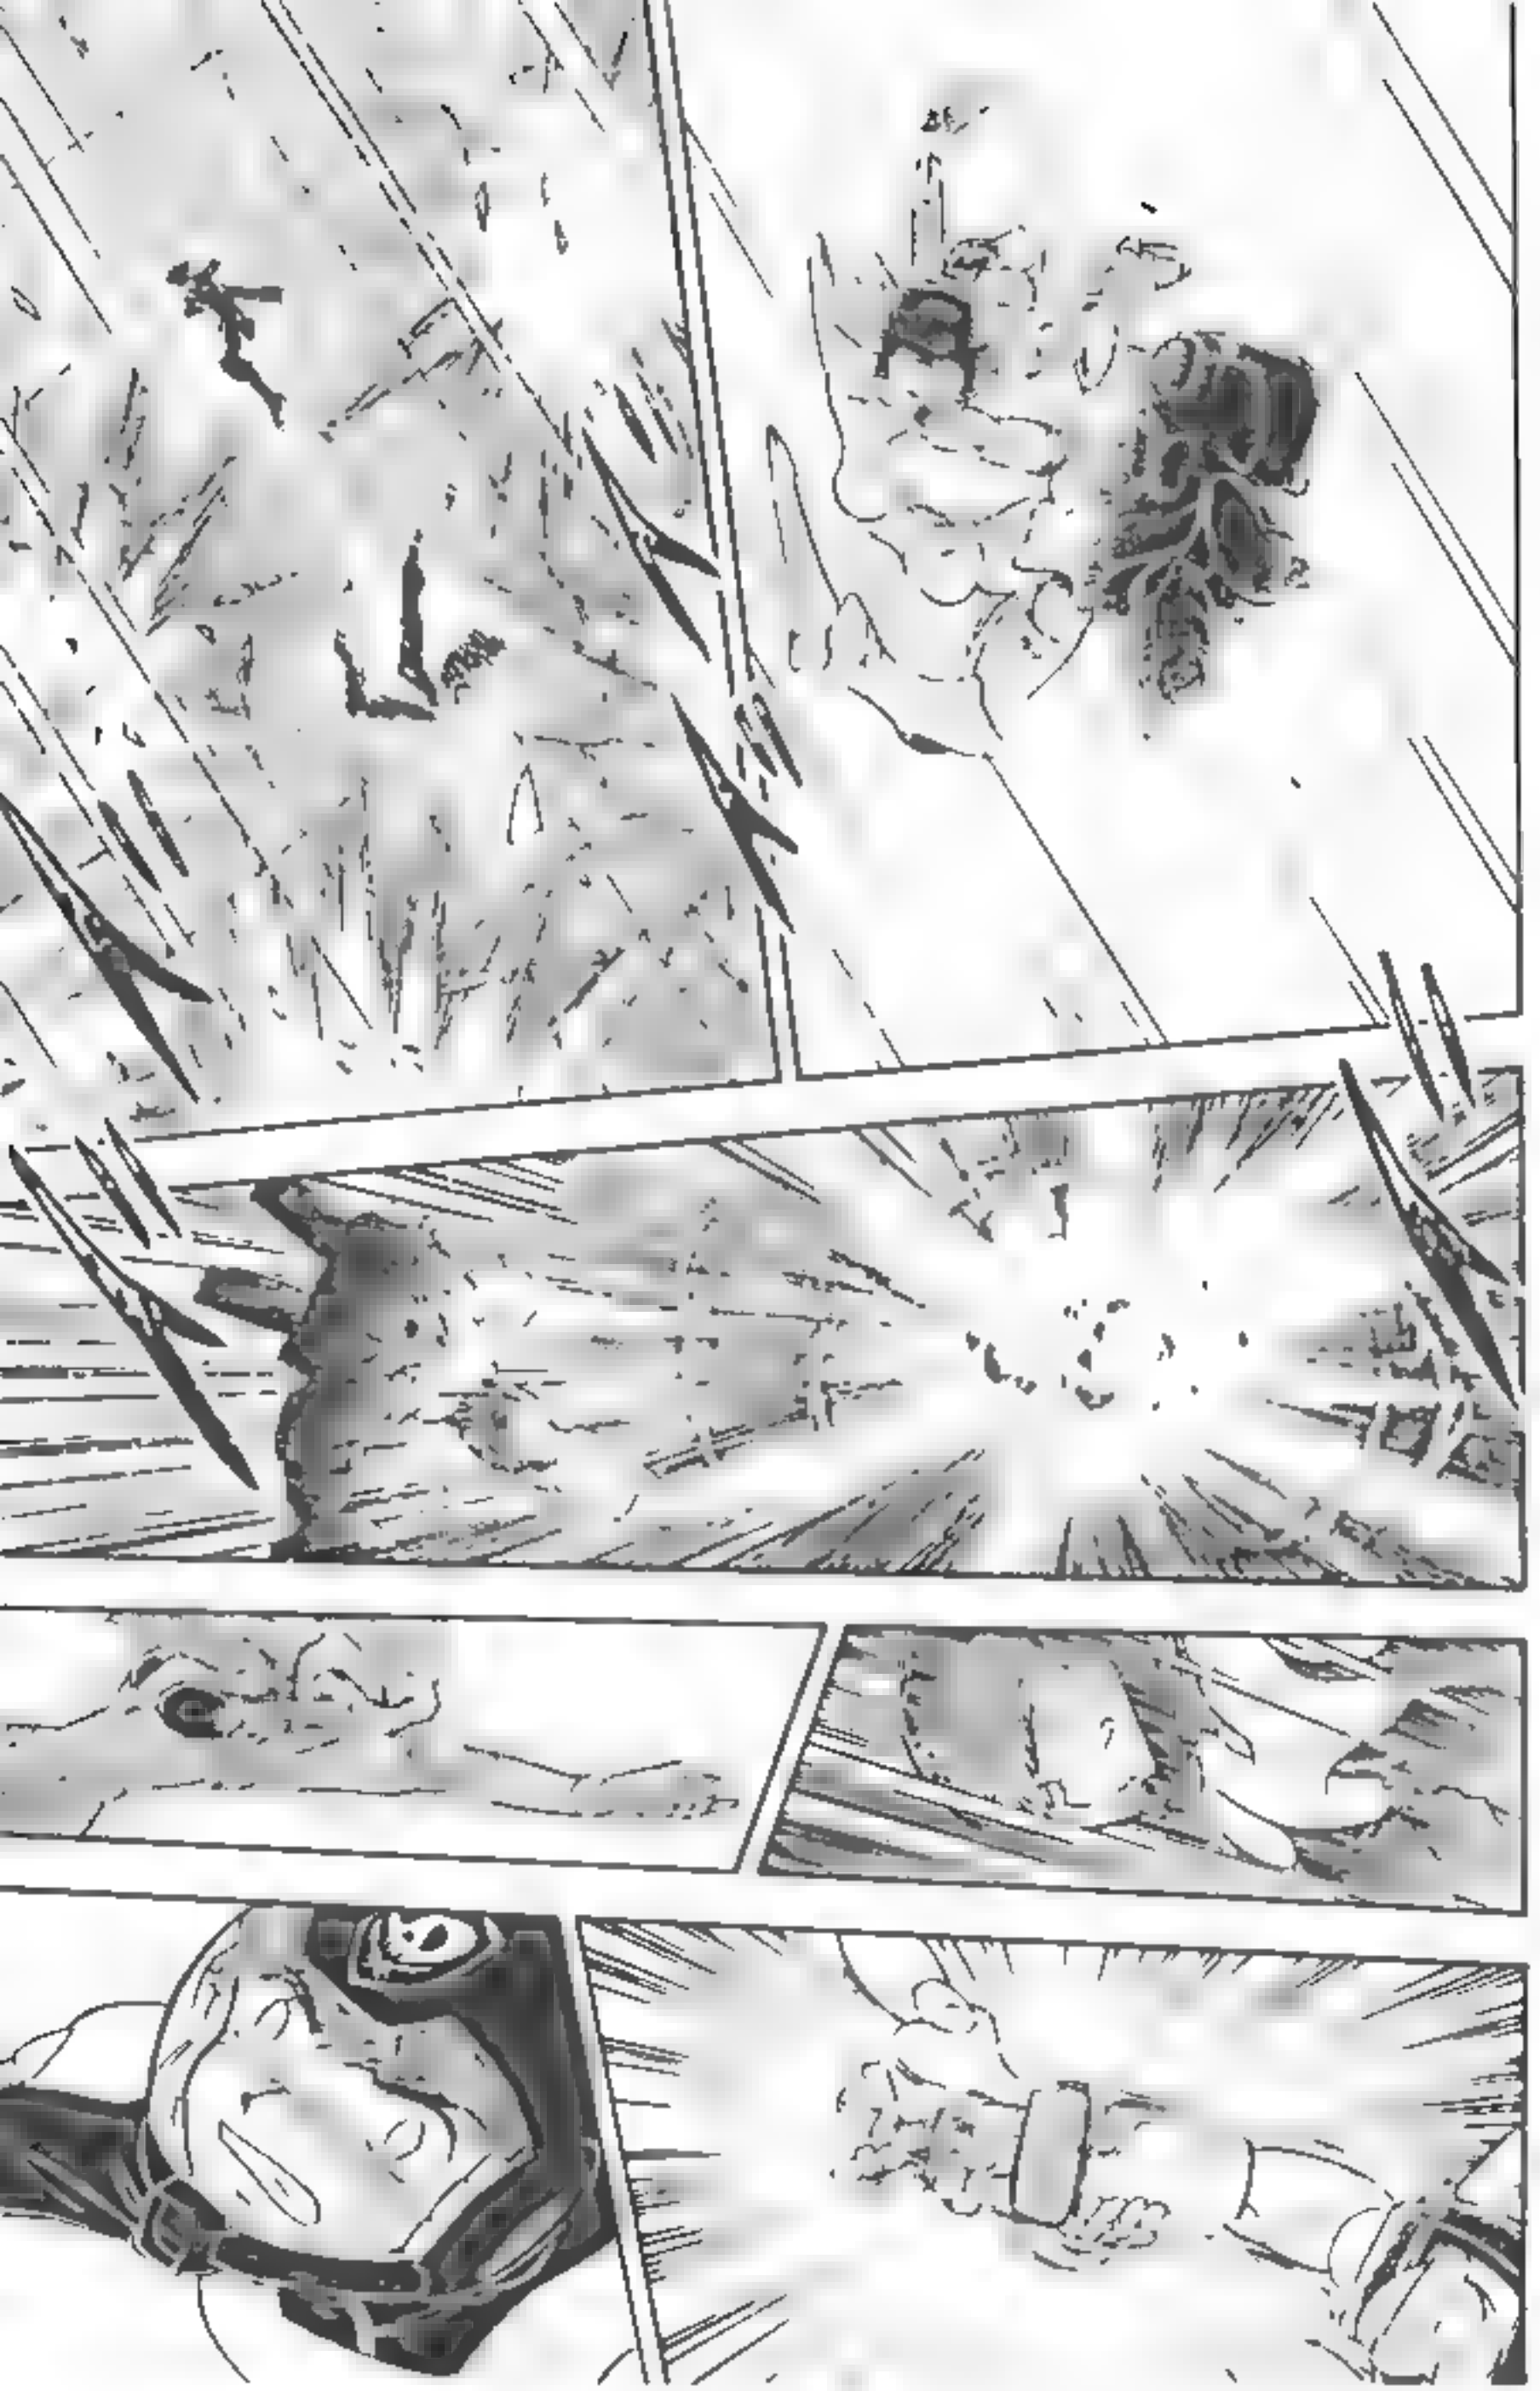


This image is hosted at MangaTank.com



This image is hosted at MangaTank.com

This image is hosted at MangaTank.com



This image is hosted at MangaTank.com

You mustn t Europa Get out of there!

It won t be possible for both machines!

Let my hand go!

This image is hosted at MangaTank.com

Why Am I still alive ?

Why did the oldest one survive again ?

Why do I get to live!?

I wouldn't have minded dying!

You Ulysses Drake all of these young people died instead

That s all that we can do

Just as we ve always done

Let s keep living.

And there are those who die when they wish!

There are people who live as long as they wish and

That s all that s left

You re right

Y

Yes

This image is hosted at MangaTank.com

It was said that the Operation s survival rate would be close to zero

Two survivors remained, Minoru Suzuki and Rosemary Raspberry

And the total number of

those who never returned was

5

While the resistance only had a small battle force they were swift to act

And the Empire s forces having lost both their leader and the Colony laser also lost their will to fight

This image is hosted at MangaTank.com

By the time everything was over,

The colony laser's beam, having finally reached the earth sphere,

Missed its target by over 100 million kilometers

In the vacuum of space, the laser never was able to shine

the burning light which would have delivered death and anarchy to earth when it struck

Instead, it vanished into space where no one ever noticed it

And so, space remained calm,

As if nothing had ever happened

This image is hosted at MangaTank.com

Was assigned, along with his wife Rosemary to be an inspector of the Jupiter Sphere

Lt Minoru Suzuki, who returned to the military,

The federation forces did keep this incident a secret, but

The paths of the people involved in it can be traced

And were loathed as "terrifying demons" by the Empire's remnants

Those two, who took part in the assault, were seen by the resistance as heroes

The book's publishing was never censored, but instead turned the incident into a mythical legend of sorts

Since it only showed how painfully ignorant she was about the entire nature of the incident,

How shall we say

Mrs Rosemary published a book that was titled "The truth of the Thunderbolt of Zeus project" However,

Hey, at least it sells

This image is hosted at MangaTank.com

I'm sorry I'm not quite sure how I should write this telegram.

What's up now?

Over did things just a little bit, in the end

Ahem, chief

The (former) Lt Harrison Maddin,

He was completely kicked out of the Federation and now works with a civilian Company

You need to at least learn that

And one of their older plans to move the Federation's capital onto the moon, received a huge push

But because of his efforts, the higher-ranking Federation officers finally did grasp the seriousness of the situation,

This was done so that the capital could be placed in a location where no single colony laser could easily target it

This image is hosted at MangaTank.com

We'll temporarily work for normal clients

No kidding

Yawn

The Black bow shippers, having now lost their most powerful mobile suits, stopped working for the pirates.

Iko ki!

This is the last recorded picture of the "Crossbone Gundam"

Returned to Jupiter in the following year

Tetenith Dogatie, having been protected by one of the earth sphere s noble families,

A portion of the faction s possessions and shares were handed over to a trust group

By that time, the political group which Crux Dogatie established had already been dissolved, but

And with her own hands. she managed the fragile economy of the tiny nation called Jupiter, which could still collapse at any point

She then became its manager.

Oh!

This image is hosted at MangaTank.com

But

Aha!

The names Tobra Arronax and Bernadette Brett are no where to be found in history

Black Raw

It's alright!

Who is that Someone suspicious!?

Yes They're my second favorite thing

Do you like cats?

some kind of panther, and get scared off, but

That s strange At Jupiter, a lot of people treat him like he's,

This image is hosted at MangaTank.com

Wait. you.

Who are you?

What

Truth be told, I wanted here because I wanted to ask you a favor

Could I work for you, princess?

Until now I wasn't accepted anywhere else, but

I've heard that you, Princes, have an open heart that's famous for accepting people

So I

You might think that I look suspicious, but to tell you the truth, I left here several years ago, to hunt down space pirates. I got into an accident, and any memories I had from before that point aren't very clear

Show me your eyes

This image is hosted at MangaTank.com

Your... EYES

.....

Your

Y

Y

Ah!

Those eyes...

Even things which other people can't.

Because of this, there are many things I can see better.

Don't worry about it.

I

but is now crying.

Who should have disappeared,

Like the little girl behind you,

This image is hosted at MangaTank.com

This image is hosted at MangaTank.com

perhaps

It should be noted in the records,

That there was a young man,

A place that's far, far away...

That's...

The reason I came here.

I will one day find the little girl who vanished in the distance,

be with her, shoulder to shoulder. Then, I'll continue to walk,

Even if it's in,
